11/13/65 Miss Rock, Sen. Morse's leg. asst. should have gotten Thermofaxed copy from Newman by messenger today. Phoned him from her office. She will be away several days next week and doesn't know how soon she'll read it. I had seen her August 23 to tell her of those chapters I thought Morse would find of interest in connecti on wit h his bill that is before the Tydings Judiciary Subcommittee. It would limit the public disclosures and other things he feels injure the accused and endanger his rights . Confidential basis-nothing to be done by them.

12/2/65 - Read - found interesting. Nothing new for Morse, who is overseas until after Xmas on Legal Rights. Thinks he will be interested. Told her he'd let her have copy again if he wants. She is to send it to the Sen. in Wainwright, Barclay
